RDD POOL COVER DRAINER DISK PUMP

The RDD Drainer Disk Pump is a handy, easy to use tool for your in-ground and above-ground pool cover for water removal applications. Simply connect the Drainer Disk discharge using the plastic adapter to a standard garden

hose. Place the pump on the pool cover in a low area, locate garden hose discharge in acceptable location and plug into any standard grounded 115 volt receptacle.

IMPORTANT SAFETY INSTRUCTIONS BEFORE INSTALLATION

Failure to follow these instructions may cause serious bodily injury and/or property damage.

READ THESE RULES AND INSTRUCTIONS CAREFULLY.

The RDD is designed to automatically remove water from your pool cover and cannot be used as a continuous duty sump pump or fountain pump. This pump is not for draining a pool.

WARNING

Risk of electric shock. This pump is supplied with a ground fault interrupter plug. To reduce the risk of electric shock, be certain that it is connected only to a properly ground, grounded-type receptacle.

- Power cord must always be plugged into a grounded receptacle.
- Never place pump in water or remove from water while the unit is plugged in!

- Unplug this unit when water has drained to 1/8".
- Never handle the pump with wet hands, or while standing in or near damp ground, while the unit is plugged in.
- Never operate the pump with a frayed or brittle power cord, and always protect it from sharp objects, hot surfaces, oil, and chemicals. Avoid kinking the cord.
- Do not use an extension cord.
- Before installing or servicing your pump, be certain the pump is not plugged in.
- Do not pump any liquids other than water.
- When not in use, the pump should be disconnected from a power source and placed in a location not accessible to children.
- Do not operate when anyone is in the pool.
- Do not contact the water while the unit is plugged in.
- Do not leave the pump unattended when in use.

GETTING THE MOST FROM YOUR WATER ACE DRAINER DISK

Optimum pump performance is reached at a maximum 25' garden hose length. The pump continues to work at longer lengths, but the GPM reduces due to loss of friction in the longer hose length.

Make sure the water runs smoothly through the garden hose – no kinks or obstructions!

Basically, if the pump "hums", it works. If there is little or no movement of water, that means there is an air lock or something is clogging the unit. If air locked, UNPLUG, tip the pump on its side and submerge in water. If clogged,

UNPLUG and flush the foreign object out with water.

The Drainer Disk has a built-in thermal overload protection which means the unit will automatically shut-off when it senses it could reach an overheat level. Once cooled down, it will reset and is ready to pump again.

REMEMBER, this pump has a built-in overload protection and will shut itself off to prevent overheating. This is not pump failure or a manufacturing defect.

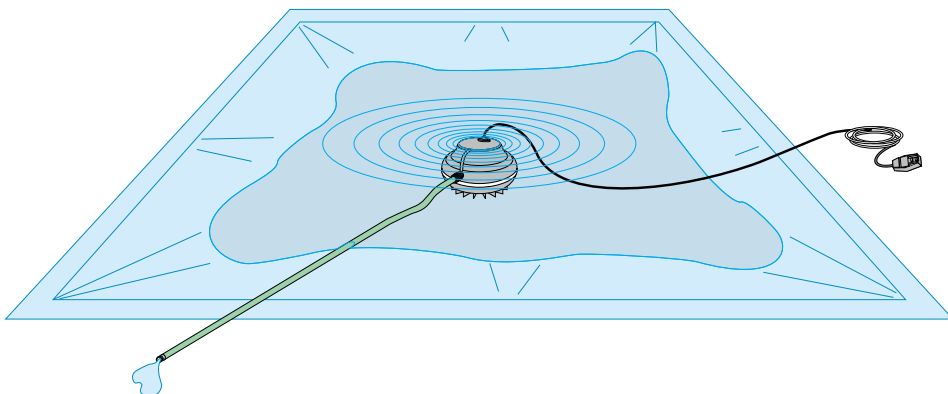

Call the Water Ace hotline for technical assistance at 1-800-942-3343.

THE WATER ACE DRAINER DISK IS SIMPLE TO CONNECT

STEP 1 Connect a standard 5/8" garden hose to the pump threaded discharge.

STEP 2 Place the pump into the water to be pumped.

STEP 3 Move away from the area to be pumped, and while **standing on dry ground and with dry hands**, plug into a dry and grounded outlet.

PRODUCT WARRANTY

Your Water Ace pump is a quality designed and quality manufactured product and is covered against manufacturing defects for 12 months from the date of purchase.

LIMITED WARRANTY

WATER ACE PUMP CO. will repair or replace for the original user any portion of a new Water Ace product which proves defective due to materials or workmanship of WATER ACE PUMP CO. WATER ACE PUMP CO. shall possess the sole right to determine whether to repair or replace defective equipment, parts or components. THIS WARRANTY DOES NOT COVER DAMAGE DUE TO LIGHTNING OR OTHER CONDITIONS BEYOND THE CONTROL OF WATER ACE PUMP CO.

PUMPS: Warranted 12 months from date of purchase. In the absence of suitable proof of purchase date, warranted 18 months from the date of manufacture.

LABOR & COSTS: WATER ACE PUMP CO. shall IN NO EVENT be liable for the cost of field labor or other charges incurred by any customer in removing and/or reaffixing any WATER ACE PUMP product, part or component.

THIS WARRANTY WILL NOT APPLY: (a) to defects or malfunctions resulting from failure to properly install, operate, or maintain the unit in accordance with printed instructions provided; (b) to failures resulting from misuse, abuse, accident, or negligence; (c) to normal maintenance services and the parts used in connection with such service; (d) to units which are not installed in accordance with applicable local codes, ordinances, and good trade practices; (e) if unit is used for purposes other than for what it was designed and manufactured.

PRODUCT IMPROVEMENTS: WATER ACE PUMP CO. reserves the right to change or improve its products or any component without obligation to provide such a change or improvement for units previously sold and/or shipped.

WARRANTY EXCLUSIONS: After the expiration of this warranty period, THERE WILL BE NO WARRANTIES INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE ON ANY SPECIFIC WATER ACE PUMP PRODUCT. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. No warranties or representations at any time made by any representative of WATER ACE PUMP CO. shall vary or expand the provisions hereof.

LIABILITY LIMITATION: IN NO EVENT SHALL WATER ACE PUMP CO. BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL OR SPECIAL DAMAGES RESULTING FROM OR RELATED IN ANY MANNER TO ANY WATER ACE PUMP PRODUCT OR PARTS. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. This Warranty gives you specific legal rights. You may have other rights which vary from state to state.
