RES UTILITY PUMP INSTALLATION MANUAL

The RES Electronic Utility Sump Pump is the **SMARTEST PUMP IN THE MARKET**. The RES is designed to remove water from basements, yards, marine & recreation and shallow flooded areas. Simply connect the RES to a standard garden hose on the discharge, place the pump in the area to be drained, plug into any standard grounded 115 volt receptacle (**do not stand in or touch the water while plugging the pump in or during use!**), and it'll automatically run when water is detected; will automatically shut off when water is down to 1/8". The RES will then automatically check for water every few minutes.

The Electronic Utility Sump Pump is engineered to move water **not warmer than 104°F only**. Pump failures due to mud, tar, cement, wood chips, corrosive material damage, or requests for return following temporary use are not covered under the manufacturing warranty and will not be exchanged, returned for credit or refund.

IMPORTANT PRODUCT AND SAFETY INFORMATION

Failure to follow these instructions may cause serious bodily injury and/or property damage.

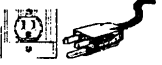

The RES Electronic Utility Sump Pump has built-in overcurrent protection. This pump can be left plugged in for several hours in spot jobs but is **not recommended to be used as a continuous duty sump pump or fountain pump**.

OPERATIONS

1. Place pump in water.
2. Connect to power source.
3. Pump will begin pumping immediately.
4. After pumping the water out (to a level of 1/8") the pump will automatically shut off.
5. Pump will cycle every three (3) minutes, running for only five (5) seconds, if no water is detected, the pump will shut off automatically.
6. When water is detected the pump will continue pumping until the water is pumped out.

7. Disconnect pump from power source when not in use for an extended period of time. This prevents unnecessary wear.

▲ WARNING, risk of electric shock - this pump is supplied with a grounding conductor and grounding type attachment plug. To reduce the risk of electric shock, be certain that it is connected only to a properly grounded, grounding-type receptacle.

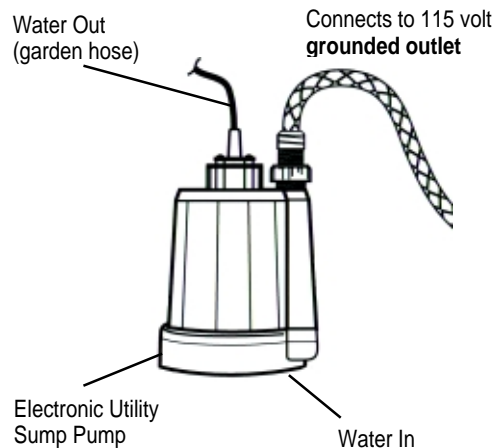

1. Power cord must always be plugged into a grounded receptacle.
2. **NEVER** place pump in water or remove from water while the unit is plugged in! 
3. Unplug this unit when water is drained and not needed for a period of time.

THE WATER ACE ELECTRONIC UTILITY SUMP PUMP IS SIMPLE TO CONNECT

STEP 1 Connect a standard 5/8" garden hose to the pump threaded discharge.

STEP 2 Place the pump into the water to be pumped.

STEP 3 Move away from the area to be pumped, and while **standing on dry ground**, plug into a dry and grounded outlet.

PRODUCT WARRANTY

Your Water Ace electronic utility sump pump is a quality designed and quality manufactured product and is covered against manufacturing defects for 12 months from the date of purchase. **Any misuse, abuse, or negligence automatically voids warranty.**

LIMITED WARRANTY

During the time periods and subject to the conditions hereinafter set forth, WATER ACE will replace to the original user or consumer any portion of your new WATER ACE product which proves defective due to defective materials, or workmanship of WATER ACE or refund the purchase price. Damage due to lightning or conditions beyond the control of WATER ACE is NOT COVERED BY THIS WARRANTY.

PUMPS: 12 months from date of purchase or 18 months from date of manufacture, whichever occurs first.

ACCESSORIES & COMPONENTS: not manufactured by WATER ACE are warranted only to the extent of the original manufacturer's warranty.

LABOR & COSTS: WATER ACE shall IN NO EVENT be responsible or liable for the cost of field labor or other charges incurred by any customer in removing and/or reaffixing any WATER ACE product, part or component thereof.

THIS WARRANTY WILL NOT APPLY: (a) to defects or malfunctions resulting from failure to properly install, operate, or maintain the unit in accordance with printed instructions provided; (b) to failures resulting from abuse, accident, or negligence; (c) to normal maintenance services; (d) to units which are not installed in accordance with applicable local codes, ordinances, and good trade practices; (e) if unit is used for purposes other than for what it was designed and manufactured.

PRODUCT IMPROVEMENTS: WATER ACE reserves the right to change or improve its products or any component

thereof without being obligation to provide such a change or improvement for units sold and/or shipped prior to such change or improvement.

WARRANTY EXCLUSIONS: As to any specific WATER ACE product, after the expiration of the time period of the warranty applicable thereto as set forth above, THERE WILL BE NO WARRANTIES INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE.

Some states do not have limitations on how long an implied warranty lasts, so the above limitation may not apply to you. No warranties or representations at any time made by any representative of WATER ACE shall vary or expand the provision hereof.

LIABILITY LIMITATION: IN NO EVENT SHALL WATER ACE BE LIABLE OR RESPONSIBLE FOR CONSEQUENTIAL, INCIDENTAL OR SPECIAL DAMAGES RESULTING FROM OR RELATED IN ANY MANNER TO ANY WATER ACE PRODUCT OR PARTS THEREOF.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

In the absence of suitable proof of this purchase date, the effective date of this warranty will be based upon the date of manufacture plus 180 days.
